MEMORANDUM FOR THE RECORD

SUBJECT: Electronic Equipment Developed for the
U-2R Aircraft

25X1A 1. The purpose of the attached memorandum
[redacted] is to support the proposal for additional
development and system interface of [redacted] for the
U-2R program. 25X1

2. Prior to meeting with Lockheed, we (OEL and OSA)
had assumed that the present [redacted] configura-
tion would be satisfactory for the U-2R. 25X1

3. We have determined that additional effort is
required both in antenna development and system interface.

4. As there is little time to complete the required
effort while maintaining the present U-2R schedule, a
memorandum from OSA to OEL should aid in reducing the
usual reaction time to the crash effort.
